COURT FF™ 3 NOVAK

The COURT FF™ 3 tennis shoe is modeled after Novak Djokovic’s playing style. These shoes are designed to help you swing stronger and recover quicker between shots.

Novak has a zero-step shot. This means that he’s swinging his racquet when he lands. By increasing the outsole’s contact area, the shoe creates a stable landing and reduces the load placed on the body. As a result, you’re able to put more energy into generating a powerful swing.

For a smoother crossover step, this shoe allows you to perform quicker turns in a shorter timeframe. With good outsole grip and a TWISTRUSS™ support system, you can push off the ground with more force. This helps you quickly recover and get back to your ready position more smoothly.

FEATURES

- FLYTEFOAM® cushioning helps keep the shoe lightweight
- Forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- TWISTRUSS™ technology improves quickness and cutting motions
- PGUARD™ technology helps increase durability in the outsole’s toe and heel area
- MONO-SOCK® construction helps improve stability
- AHARPLUS™ rubber outsole improves durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology.

TENNIS FOOTWEAR
GEL-RESOLUTION® 9

The GEL-RESOLUTION® 9 tennis shoe creates advanced stability and cushioning for players who like to control the game from the baseline.

DYNAWALL™ technology in the midsole now extends into the heel for added stability during lateral movements. It’s a functional feature that’s effective when you’re running covering both sides of the baseline.

DYNAWRAP™ technology in the eyestay has been strategically redesigned to apply pressure when extra support is needed. This allows you to experience a locked-in feel when you’re making quick transitions.

Lastly, the full-length outsole and separated heel help produce a more stable landing for quicker recoveries in between shots.

SKY ELITE™ FF 2 | SKY ELITE™ FF MT 2

The SKY ELITE™ FF 2 volleyball shoe helps you experience powerful jumps, allowing your game and mind to reach new heights.

Specifically created with the attacker in mind, these shoes help reduce energy loss when setting up for the spike. The curved heel design allows you to smoothly cut towards the net by creating an easier forward transition.

The midsole’s TWISTRUSS™ technology increases jumping force by working with a wider lateral forefoot gauge and the DYNAWRAP™ lacing system. Together, these technologies improve stability when braking and decrease power loss during jumps.

A thicker midsole is layered with FLYTEFOAM® Propel cushioning. This helps you experience more underfoot comfort and higher jumps.

FEATURES

- GEL® technology cushioning provides excellent shock absorption
- DYNAWRAP™ technology improves stability during side-to-side movements
- Solution dye sockliner helps reduce overall water usage by approx. 33% and carbon emissions by approx. 45%
- FLYTEFOAM® Propel technology cushioning increases impact absorption and responsiveness
- TWISTRUSS™ technology helps players transition horizontal power to vertical power without losing energy
- Curved heel shape allows athletes to cut-in more smoothly and set themselves up for a more powerful jump.
- Wider flexion grooves in the outsole offer better flexibility
