FABRIC TECHNOLOGY

ASICSMOTIONDRY

Technology is defined as the science of dealing with the properties, distribution and circulation of water. At ASICS, we apply this philosophy to the management and evaporation of sweat. The quick distribution of moisture away from the skin keeps the body dry, comfortable and better able to regulate temperature. Fabric absorbs sweat from the skin, then transfers it to the fabric surface where it can evaporate rapidly. Hydrology® fabrics are constructed to provide breathability and air circulation through the knit or woven structures.

QUICK DRY

Quick Dry is fabric technology that moves moisture away from the skin, allowing it to dry quickly and keep the wearer extremely comfortable in a wide variety of temperatures, activities, or conditions. The special 100% polyester blend offers the perfect balance of wind resistance, evaporation, breathability, insulation and ventilation. This soft, lightweight, and ultra-cool fabric also provides UV protection with a UPF rating of 20/30+, making it perfect for warm weather and intense workouts.

COMPRESSION

Nylon and spandex are combined to create a close-fitting, comfortable, moisture-wicking garment. The high tenacity stretch provides muscles with a firm compression that reduces muscle vibration, allowing you to increase leg strength and endurance. The compression fabrics' open knit construction creates an effective moisture transfer environment to keep you cooler, more energized, and able to perform at a maximum level for a longer duration. There is also a special anti-odor feature within the fabric.

CUSTOM SUBLIMATION

STEP ONE

Log on at teamsublimation.asicsamerica.com

STEP TWO

Select your team styles, colors, sizes and quantities, then add player names and numbers

STEP THREE

Receive your custom designed uniforms in 4 weeks

All sublimation orders must go through your ASICS rep.

FOOTWEAR GLOSSARY

AHAR® Technology Acronym for ASICS High Abrasion Rubber. Placed in critical areas of the outsole for exceptional durability.

AmpliFoam™ Midsole Engineered to maintain durability at softer densities, providing better flexibility, comfort, and platform adaptability ideal for natural running.

Anti-Gravel Tongue Gusseted construction prevents debris from entering the shoe.

APMA Seal of Acceptance Designated shoes have the American Podiatric Medical Association (APMA) Seal of Acceptance.

Biomorphic Fit® Upper Stretch material strategically placed on the upper helps to reduce buckling and the potential for irritation.

Ortholite® Lasting This lasting material features plush underfoot comfort while providing excellent moisture management, high level breathability, and antimicrobial properties.

Ortholite® Sockliner Provides cushioning performance and anti-microbial properties for a cooler, drier, healthier environment.

Ortholite® X-40 Sockliner This premium sockliner features higher rebound properties while providing excellent moisture management, high-level breathability, and antimicrobial properties.

Discrete Eyelets Independently placed eyelets disperse lace tension, creating a customized fit environment and enhanced upper comfort.

Discrete Heel Unit Takes the Impact Guidance System (I.G.S®) to a new level by creating our highest degree of shock attenuation and stability.

DuoMax® Support System A dual-density midsole system positioned to enhance support and stability.

DuoSole® Outsole Reduces weight and enhances flexibility while maintaining traction and durability.

DuraSponge® Outsole A blown AHAR® rubber compound for enhanced cushioning and durability in the forefoot.

Dynamic DuoMax™ Support System This evolution of DuoMax® system enhances stability and support, with reduced weight and increased platform comfort.

Elastic Laces A classic triathlon feature allowing a runner to put the shoe on quickly, easily, and securely.

Extended Forefoot DuoMax® Provides unrivaled support to meet the needs of late-stage and midfoot overpronators.

Extended Rearfoot GEL® Technology Cushioning The rearfoot GEL® technology cushioning extends further forward under the lateral midfoot, increasing shock attenuation and protection for neutral runners.

Flexion Fit® Upper Proprietary upper which provides form-fitting comfort without sacrificing support.

FluidAxis® Midsole Technology Anatomically correct deep flex grooves have been aligned to the joints of the foot. This innovative construction enables the shoe to recognize, adapt, and respond to the athlete's exact load and positional change from first impact to toe-off.

FluidRide™ Midsole provides the ultimate combination of bounce back and cushioning properties with reduced weight and exceptional durability.

FluidFit® Upper Technology combines multi-directional stretch mesh with stretch reinforcements that adapt to the athlete's foot, creating a truly customized glove-like fit.

Forefoot GEL® Technology Cushioning System Enhances shock attenuation during propulsion.

fuzeGEL™ Midsole Cushioning technology newest to ASICS made from the fusion of GEL® property and foam creates lightweight adaptable comfort, tuned to provide rearfoot shock absorption that shifts to forefoot bounce back.

Gender Specific Cushioning Women's models feature a lower-density top layer in the midsole, allowing female athletes to better enjoy the benefits of midsole compression.

Glow-in-the-Dark Print Glow-in-the-Dark print provides added visibility in low light conditions.

Glow-in-the-Dark GEL® Technology Cushioning Glow-in-the-Dark GEL® technology cushioning provides added visibility in low light conditions.

GORE-TEX® Upper Waterproof and breathable upper designed to protect the foot during extreme weather conditions.

Guidance Line® Midsole Technology Vertical flex groove decouples the tooling along the line of progression for enhanced gait efficiency.

Guidance Trusstic System® Technology This Trusstic System® version integrates Guidance Line® construction for enhanced gait efficiency while providing midfoot structural integrity.

Heel Clutching System™ Technology Exoskeletal heel counter provides improved support and creates improved heel fitting environment.

I.G.S® (Impact Guidance System) Technology (Multi-Sports) Linked, category-specific componentry that enhances the foot's natural gait.

I.G.S® (Impact Guidance System) Technology (Running) ASICS design philosophy that employs linked componentry to enhance the foot's natural gait from heel strike to toe-off.

Lace Garage™ Technology Pocket enables the laces to be tucked in and unexposed.

Magic Sole™ Outsole Vented midsole and outsole minimizes weight and maximizes breathability.

Maximum Support Last Providing more depth and width throughout the mid- and forefoot, this accommodating last is ideal for athletes with higher volume feet or who wear orthotics.

MONO-SOCK® Fit System An elastic internal sleeve which replaces a traditional tongue providing a "sock-like" fit.

Natural33™ Last Mimicking the shape of the foot, this anatomically shaped last provides a secure heel fit and an ample toe box that allows the toes to splay.

Plus 3® Midsole Technology 3mm of additional height on women's models helps relieve achilles tension.

Perforated Sockliner Upper Technology Optimizes moisture drainage and improves breathability.

PlasmaGuard™ Upper Technology Your shoes are protected from rain and mud without the loss of breathability and flexibility through PlasmaGuard™, an innovative coating technology patented by Europlasma.

Propulsion Trusstic® Technology Mimics connective tissue in the foot by creating tension as foot enters propulsion stage.

Racing Specific Last Built on ASICS' racing shoe last.

Rearfoot and Forefoot GEL® Technology Cushioning Systems Attenuates shock during impact and toe-off phases, and allows movement on multiple planes as the foot transitions through the gait cycle.

Rearfoot GEL® Technology Cushioning System Attenuates shock during impact phase and allows for a smooth transition to midstance.

Reflectivity Contains reflective materials designed to enhance visibility during low-light hours.

Reinforced Vamp Vamp mesh durability is increased by the addition of a thin, seamless underlay.

Removable Sockliner A sockliner which can be removed to accommodate a medical orthotic.

Removable Spikes Allows the athlete to customize spike configuration and replace worn elements.

Rock Protection Plate Provides protection against stone bruises.

Seamless Construction The use of seamless materials reduces the potential for irritation and friction caused by traditional stitches and seams.

Solid Rubber Outsole Provides enhanced durability and traction.

Solyte® Midsole Material A lighter weight midsole compound than ASICS' standard EVA and SpEVA®. Also features enhanced cushioning and durability.

SpEVA® 45 Lasting Employs 45 degree Solyte® lasting material for a soft platform feel.

SpEVA® 55 Lasting Employs 55 degree Solyte® lasting material for a soft but stable platform feel.

SpEVA® 65 Lasting Employs 65 degree Solyte® lasting material for a firmer, more stable platform feel.

SpEVA® Midsole Material Improves bounce-back characteristics and decreases midsole breakdown.

Trail Specific Outsole Reversed lugs provide uphill and downhill traction on all types of terrain.

Trusstic System® Technology Reduces the weight of the sole unit while retaining the structural integrity of the shoe.

WET GRIP® Outsole An outsole made from a special blend of organic and non-organic components, designed to enhance traction even on wet surfaces.

Youth-Specific Cushioning Lower-density midsole material allows youth athletes to better enjoy the benefits of midsole compression.

(949) 453-0321 Credit
(949) 453-0292 All Others

Important Information:

- 1. Orders:** All orders are subject to acceptance by ASICS America Corporation. Please send all orders to 80 Technology Drive, Irvine, California 92618.
All initial orders by any new accounts must total \$5,000 (may combine accessories, footwear and apparel to reach total) and be approved by the local ASICS Sales Representative. Orders for less than \$200 will be charged a \$10 service charge. No Cash-in-Advance or COD orders.
- 2. Terms – Net 30 Days: F.O.B. Byhalia, Mississippi.** A service charge of 1% per month (an annual percentage rate of 12%) will be charged on all past due invoices. **No discounts will be allowed to any customer having an overdue balance. Deduction from payments for any reason will not be allowed until credit memo is issued. Any such deduction will be shown as payment shortage on account.**
- 3. Prices: All Prices Are Subject To Change Without Notice.** Orders will be invoiced at prices prevailing at time of shipments.
- 4. Shortages:** Please inspect all shipments carefully. Verify the total number of cartons and check the exterior of cartons for damage. All claims for lost or damaged shipments must be made directly to delivering carrier. Discovery of shortage due to packing errors must be reported in writing **within 10 days of receipt**. Adjustments can be made only if reported within that time.
- 5. Return Policy and Claims:** ASICS reserves the right to approve authentic returns due to manufacturing defects, late shipment or other legitimate reasons. All returns must be authorized in advance by ASICS America Corporation. In order to return goods, all accounts must request authorization to return merchandise to ASICS **within 30 days of the invoice date**. If such request is approved, ASICS will send preprinted authorization shipping stickers which must be affixed to the package of goods returned. All return authorization stickers have a **30 day expiration date**. If merchandise is returned without the return sticker and/or past expiration date, it will be refused. ASICS reserves the right to charge a 15% restocking fee for all returns of non-defective merchandise. "Collect" shipments of returned merchandise will not be allowed, and freight must be prepaid by the dealer.
- 6. Cancellation of Order:** Cancellation of order must be in writing and received by ASICS America Corporation, Irvine, California, 15 days prior to shipping date for regular orders and received 35 days prior to requested shipping date for E.O.B. orders.
- 7. Adjustments to E.O.B. Orders:** An E.O.B. order is an order which requests delivery 150 days or more after the order is received at ASICS America Corporation, Irvine, California. Any adjustment decreasing an E.O.B. order by more than 10% will cause the E.O.B. discount to be cancelled. For further information, please contact your ASICS Sales Representative.
- 8. At Once Orders:** An **At Once** order is an order requesting immediate delivery. For further information, please contact your ASICS Sales Representative.

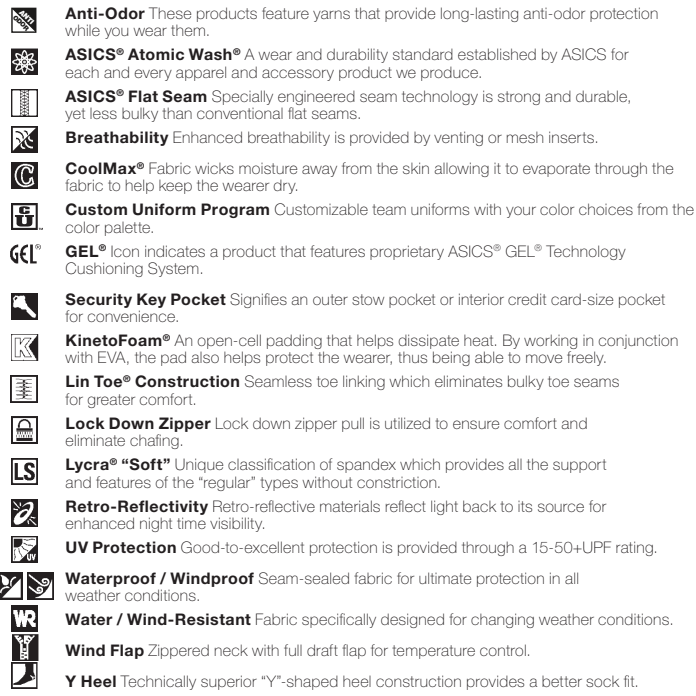

ASICS recognizes environmental conservation as an important social responsibility of the corporation and takes action to realize sustainable development on a global scale.
