FOOTWEAR

COURT FF™ 3 NOVAK

The COURT FF™ 3 tennis shoe is modeled after Novak Djokovic's playing style. These shoes are designed to help you swing stronger and recover quicker between shots.

Novak has a zero-step shot. This means that he's swinging his racket when he lands. By increasing the outsole's contact area, the shoe creates a stable landing and reduces the load placed on the body. As a result, you're able to put more energy into generating a powerful swing.

For a smoother crossover step, this shoe allows you to perform quicker turns in a shorter timeframe. With good outsole grip and a TWISTRUSS™ support system, you can push off the ground with more force. This helps you quickly recover and get back to your ready position more smoothly.

FEATURES

FLYTEFOAM® cushioning helps keep the shoe lightweight

Forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

TWISTRUSS™ technology improves quickness and cutting motions

PGUARD™ technology helps increase durability in the outsole's toe and heel area

MONO-SOCK® construction helps improve stability

GEL-GAME™ 9 GS

Both lightweight and flexible, the GEL-GAME™ 9 tennis shoe is versatile for all-court players. Preserving its excellent support properties, our focus this season was to improve the shoe's ventilation and flexibility.

Featuring an open mesh design on the upper to improve airflow and keep feet cool, this shoe is complemented with synthetic leather overlays and a PU (polyurethane) film that offers improved stability when making abrupt transitions.

The TRUSSTIC® technology in the midsole generates better stability on the court. At the same time, the new tooling combines an EVA midsole foam with GEL® technology cushioning in the forefoot to increase shock absorption.

Additionally, the improved outsole offers better flexibility and a more durable design.

PU and mesh design improves breathability
